

The Waves All Plugins Bundle v12 r19 Windows is a collection of professional plugins that have been designed for all sorts of uses. Whether you are an engineer, producer or an enthusiast wanting to try out the best in the business, this plugin pack has something for you. This bundle includes Abbey Road Reverb Plates, Joe Meek SEQ-Saturator V2, L3 Multi-Mode Filter and more. This software is available at a discounted price as part of our Black Friday sale and won't disappoint. It comes with a range of plugins that have been designed for a wide variety of uses, so you can find exactly what you need. Whether it's tracking, mixing, mastering or a specific effect you're looking for, the Waves All Plugins Bundle has been designed with versatility in mind. Take your sound to the next level by adding this plugin pack to your music making rig. This bundle is only available as a download and includes no physical media. This software is compatible with Windows 7 and later versions of Windows as well as on Mac OS 10.7 and later versions. Product Features: • Abbey Road Reverb Plates plugin - To give you the authentic sound of a well-known room or studio, this reverb plate plugin includes the same 72 different plates used by the Beatles at Abbey Road Studios. It's a simple and easy to use plugin that also features macro controls for time and mix. This allows you to use a wide variety of settings for a huge range of uses, from creative production techniques to simply adding a little bit of atmosphere to your track. And with only one CPU hit, this will not affect your computer performance at all. • Joe Meek SEQ-Saturator V2 plugin - This is a unique plugin that adds harmonically rich saturation to your tracks. The Joe Meek Saturator V2 is a powerful addition to the range of plugins available with this bundle. It has a simple interface that makes it very easy to use for all sorts of tasks, from mixing and mastering, to adding some spice to your tracks. And with its integrated sidechain technology, you can easily apply it to the individual parts of your track. It's also great for producing beats as well as any sort of music or sound where you need saturation or distortion added. • L3 Multi-Mode Filter plugin - As the name suggests, this plugin adds a bit of multiband compression to your audio. It's a powerful tool that allows you to easily apply compression on the stereo ch, low-frequency bands or high-frequency bands. You can remove or add frequencies by simply using the control knob, while the 0/1 switch allows for expansion of 0-12 dB in each particular band. The resulting output can be controlled by using the standard EQ controls which are also broken down into 3 different curves. • L2 Compressor/Limiter plugin - This is a compressor/limiter combo with two really important features.
